

# Archivotech

## Streamline your archiving

---

Automatically back-up and archive digital files for easy retrieval. Rest assured with documents safeguarded in the one central location.

Archivotech is the perfect partner for Officetech, providing an effective means for electronically archiving data to a secure location, either on your server or to an external medium. Archivotech provides the solution to seamlessly archive redundant data while utilising a user-friendly interface.

### Archivotech Features

- > user-friendly interface and speedy functionality.
- > reduces manual labour by performing automatic transfer of selected electronic files.
- > relocates redundant data efficiently overnight.
- > highly efficient, accurate and automated.

### Archivotech Benefits – The Bottomline

- > increased workplace efficiency through streamlined back-up and archive processes.
- > significant reduction of storage costs and document retrieval procedures.

### We are Technosoft Solutions

As a leading supplier of document management software, Technosoft Solutions enables Australian businesses, large and small, to turn large volumes of paperwork into a manageable and streamlined information flow. We build custom solutions that accommodate the requirements of your specific business in helping you migrate to a paperless office. Keep moving forward with Technosoft – a paperless future is within easy reach.
